everybody wants to reindustrialize over China's body
in previous ages, all nations unified against China to mush their piece of the piece. so it was during the Opium War and so was it during the Siege of the Legations and the Boxer Rebellion
western nations naturally gravitate for not allowing China to adquire hegemony. it's the world's most important rivalry

What are we fighting to maintain?

We destroy China to save all the immigrants, feminists, spics, niggers, faggots, kikes, muslims, trannies, pedophiles, fake reporters, and corrupt politicians who want us dead because we're white?

Can't tell if you are dense or demoralized. Maybe both...

We cut off the hydras head and then we no longer have the shadow hand of the ccp on our social media, the insane political correctness pushed by the corps backed by China, we no longer have the universities funded by the bug men. Maybe this generation is lost but the next doesn't have to be.

I mean it's possible but not likely. No one will risk a potential WW3 even if it's a USA/Russia/India gangrape against China. There will be some cyber warfare, maybe a proxy war but that's about it.

Also wtf are they going to do about Chinese nuclear subs?
